CampusOS

AI-Powered College Productivity & Notice Prioritization System

Notion-style workspace • Smart notices • Intelligent calendar • AI prioritization

AIML MINI PROJECT

The Problem

College students receive information from too many places.

📢 Too Many Notices

WhatsApp groups, PDFs, ERP portals, emails and physical notice boards.

⏰ Missed Deadlines

Important exam forms, assignments and registrations can be buried in noise.

🧠 No Prioritization

Students must manually decide what matters to them and what needs action first.

Result: information overload + missed deadlines + unnecessary searching

Our Solution

One intelligent workspace for everything college-related.

📥 Collect

Upload or enter college notices, PDFs and announcements.

🤖 Understand

NLP extracts category, deadline, audience, date and action.

⭐ Prioritize

AI scores notices based on urgency, relevance and importance.

📅 Organize

Important events and deadlines automatically appear on the calendar.

How the System Works

1

Notice / PDF

Input

2

Text Extraction

OCR / Parsing

3

NLP Analysis

Category + Dates

4

Priority Engine

Urgency + Relevance

5

Calendar + Dashboard

Actionable Output

AI / ML Component

The project is more than a notice-management website.

1. Notice Classification

Classify notices into:
- Examination
- Assignment
- Fee
- Scholarship
- Placement
- Workshop / Event
- General

2. Information Extraction

Extract:
- Deadline
- Event date/time
- Target branch/year
- Required action
- Location
- Important keywords

3. Priority Prediction

Generate a score using:
- Urgency
- Student relevance
- Importance
- Deadline proximity

Example: 94/100 → 🔴 Critical

Example: From Notice to Action

📄 Input Notice

“All B.Tech AI & ML 2nd year students must submit the examination form by 18 August 2026.”

🤖 AI Output

Category: Examination
Target: AI & ML — 2nd Year
Deadline: 18 Aug 2026
Action: Submit examination form
Priority: 🔴 94/100

📅 18 August is automatically highlighted on the calendar.

Smart Calendar

Deadlines and events become visible, actionable and easy to track.

AUGUST 2026

MON	TUE	WED	THU	FRI	SAT	SUN
3	4	5	6	7	8	9
10	11	12	13	14	15	16
17	18 EXAM	19	20	21	22	23
24	25	26	27	28	29	30

🔴 18 Aug — Exam Form

Critical deadline • Submit today

🔵 21 Aug — AI Workshop

Event • 4:00 PM • Seminar Hall

🟡 24 Aug — Assignment

Due date • DBMS

Notion-Style Workspace

A clean student dashboard keeps information in one place.

🎓 CampusOS

- 🏠 Dashboard
- 📢 Notices
- 📅 Calendar
- ✅ Tasks
- 📚 Subjects
- 📄 Documents
- 🤖 AI Assistant

🔴 Today

Exam form submission
Deadline: Today

[Mark as Done]

📌 Upcoming

3 deadlines this week
2 events this month

[View Calendar]

🤖 AI Daily Brief

Good morning! You have 2 critical tasks and 1 upcoming event.
The most urgent item is your examination form.

Technology Stack

Frontend

HTML • CSS • JavaScript

Backend

Python • Flask / FastAPI

AI / ML

Python • Scikit-learn • NLP

Database

SQLite / MySQL

Document Processing

PDF text extraction • OCR (optional)

Calendar

Custom calendar UI • Optional Google Calendar API

Team of 4 — Work Distribution

Member 1
Frontend & UI
Notion-style dashboard, notices, calendar

Member 2
Backend
Flask/FastAPI, APIs, authentication, database

Member 3
AI/ML
Dataset, NLP, classification, priority model

Member 4
Integration
PDF upload, notifications, calendar + deployment

Future Scope

Features that can turn the mini-project into a larger product.

- 🔔 **Smart notifications based on urgency**
- 🗓️ **Google Calendar synchronization**
- 💬 **AI chatbot: “What do I need to do this week?”**
- 📱 **Mobile application**
- 👥 **Personalized recommendations for each student**
- 📊 **Analytics: missed deadlines, workload and productivity**

CampusOS

One place. Smarter notices. Zero missed deadlines.
